ASCE UCF STUDENT CHAPTER & SYMPOSIUM INFO

The American Society of Civil Engineers (ASCE) student chapter is one of the largest and oldest engineering clubs at the University of Central Florida (UCF). At the student level, **ASCE brings together over 200 students from Civil, Construction, and Environmental Engineering majors.** For decades, the club has helped students prepare for their careers by encouraging them to **participate in hands-on projects, develop their leadership skills, and connect them with their peers.**

One of the main ways this is achieved is through participation in ASCE's **Southeast Student Symposium** every spring. This consists of a variety of engineering competitions against students from a multitude of other universities in Florida, Georgia, and Puerto Rico. Students must follow a technical set of rules to design and construct challenging projects utilizing knowledge and applications gained from classroom studies.

Visit our website, asceucf.org, to find out more!

CHAPTER HIGHLIGHTS →

CHAPTER HIGHLIGHTS

SOUTHEAST STUDENT SYMPOSIUM

ASCE UCF participates at symposium annually. Students compete in projects that they work on throughout the school year, which encompass all disciplines of civil engineering and allows them to apply concepts learned in class to create innovative solutions.

PROFESSIONAL DEVELOPMENT

Through general body meetings and career development events, students in our chapter network with professionals in the industry. Our sponsors host these meetings and provide informational presentations about topics such as tips for success and engineering ethics. These meetings are beneficial for our members as they progress in their careers.

COMMUNITY SERVICE

Our chapter prides itself in giving back to the community! ASCE UCF regularly hosts community service events throughout the school year and encourages our members to participate as well.

SOCIAL EVENTS

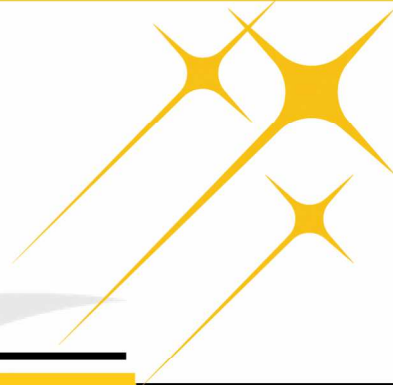

These events range from joint tailgates to sporting events with sponsors! We enjoy socializing and connecting with club members and sponsors while also establishing meaningful relationships.

AWARDS BANQUET

ASCE UCF has launched an annual awards ceremony to recognize individual student excellence within the chapter. The event highlights versatility, technical excellence, and dedication to long-term projects, among many others, aiming to inspire continued leadership and engagement in the civil engineering community.

Skyscraper Sponsors will have the opportunity to choose an award to be named after their company and announce it. Additionally, there are two tiers for banquet sponsorship: Catering and Decor.

|------------------------|---------------------------|
| • Award | Skyscraper Sponsor |
| • Catering Tier | \$500 |
| • Decor Tier | \$200 |

SPONSOR POLOS →

MEET OUR TEAMS!

Our symposium competition teams are looking for sponsors!

As teams work on their competitions, team sponsors will closely guide, advise and engage with students. They will also have the opportunity to host at least three (3) technical workshops and/or presentations for students. There are limited slots per team, so be sure to sign up quickly!

COMPETITION TEAMS SEEKING SPONSORSHIP	SLOTS AVAILABLE
UESI Surveying	1
